AMENDMENT UNDER 37 C.F.R. §1.116

Sir:

In response to the Office Action dated August 15, 2000 and in conjunction with Appellants' Second Resubmission of Brief On Appeal filed herewith, Applicant hereby files this Amendment under 37 C.F.R. §1.116.

Please amend the above-identified application as follows:

IN THE CLAIMS:

Please cancel claims 7 and 15 without prejudice or disclaimer.

Please amend the claims as follows:

1. (Twice Amended) A system comprising:
 - a central processing unit (CPU);
 - at least one input user interface module connected to the CPU, at least one said module comprising means for inputting lead management data for operation upon by the CPU, and means for inputting lead selection parameters for operation upon by the CPU;
 - a set of functional modules to be executed by the CPU, wherein a first functional module comprises a system security capability, a second functional module comprises a lead management capability, and a third functional module comprises a lead selection capability;
- CPU means responsive to an input user request comprising at least one of lead management data and lead selection parameters, the CPU means responding to said request
